Summary

- Software Developer passionate about building web and mobile applications. Focused on creating scalable, user-friendly solutions and continuously learning modern development practices.

Education

• Jk Lakshmipat University

Bachelor of Technology - Computer Science and Engineering; GPA: 7.40

Courses: Operating System, Data Structures, Design and Analysis Of Algorithms, Computer Networks, DBMS, Full Stack

Jaipur, India

Jan'23 - present

• Sushant university

- Bachelor of Technology

Department of Computer Science and Engineering in Cyber Security

Gurgaon, India

Aug '22 - Dec '22

Skills Summary

- **Frontend Development:** ReactJS, ReactNative, TailwindCSS
- **Backend Development:** ExpressJS, fastAPI, Javascript
- **Programming Language:** C++, Python;

Experience

GirlScript Summer of Code (GSSoC) 2026

Open Source Contributor

- Selected as a contributor for GSSoC 2026, one of India's largest open-source programs.
- Contributed bug fixes, feature implementations, and code improvements to open-source projects.
- Collaborated with project maintainers through pull requests, code reviews, and issue discussions.
- Applied Git, GitHub workflows, and software engineering best practices in a collaborative development environment.

Remote, India

May'26 – present

Variable Soft

Full-Stack Developer Intern

- Built reusable and responsive user interface components using React and TypeScript, improving development efficiency and user experience.
- Integrated REST APIs and implemented dynamic data handling across multiple CRM modules.
- Participated in debugging, testing, and performance optimization to improve application reliability.
- Used Git and GitHub for version control and team collaboration.

Jaipur, India

Jan '26 – June '26

Projects

Variable Soft - Enterprise CRM Platform

- Developed and maintained frontend interfaces for a production CRM platform using React and Tailwind CSS.
- Built reusable and responsive UI components to enhance user experience across desktop and mobile devices.
- Implemented smooth and interactive animations using GSAP to improve engagement and usability.
- Integrated REST APIs to display and manage dynamic business data within the application.

Tech Stack: React, Tailwind CSS, GSAP, JavaScript/TypeScript, REST APIs, Git

Subscription Tracker API

- Developed a RESTful API to manage and track recurring subscriptions.
- Implemented authentication, CRUD operations, renewal reminders, and subscription analytics.
- Integrated automated email notifications and secure API protection mechanisms.
- Designed scalable backend architecture and optimized database queries.

Tech Stack: Node.js, Express.js, MongoDB, Upstash, Arcjet

Mojito Landing Page

- Developed a modern and fully responsive product landing page using React and Tailwind CSS.
- Implemented smooth, interactive animations with GSAP to enhance user engagement and visual storytelling.
- Focused on performance optimization, responsive design, and seamless user experience across devices.
- Deployed the application on Vercel for fast and reliable hosting.

Tech Stack: React, Tailwind CSS, GSAP, Vercel

Honors and Awards

- Solved 200+ problems on LeetCode, earning the 100 Days Streak badge.
- Completed 400+ problems on Coding Ninjas, 9× College Topper, leaderboard Ninja Dominator, with 8 Specialist and 16 Achiever badges.
